RE: 2016 - 2017 ACRE Archdiocesan Results

Greetings in Christ the Teacher,

Each year during the month of January, every school, parish, and youth ministry program is asked to formally assess their religious education efforts through the use of the *NCEA IFG: ACRE* instrument (ACRE). Enclosed are the Archdiocese of Indianapolis' average score results for Catholic schools, parishes, and youth ministry programs based on testing that took place during January, 2017. This data is intended to be a reference as you analyze and apply your particular ACRE results to Catholic identity and faith formation efforts at your location.

Please note:

- These are standardized scores and should not be compared to those on a typical grading scale where 95% = A, 86% = B etc.
- Scores should be read in light of hours available for instruction. In schools this is typically 60-120 hours annually (in addition to Mass) depending on grade level. Parish catechetical programs offer a minimum of 30 instructional hours annually.
- Assessment occurs in the context of Archdiocesan content standards, approved textbooks and catechetical certification for instructors.
- Individual Student Reports should be ordered from NCEA and sent home to parents as primary educators of their children. Student data often says as much about catechist formation and overall program traits as it does about each student's progress in knowledge of the Faith.
- ACRE national averages were included in your individual ACRE results and should be referenced for comparison, in conjunction with Archdiocesan averages.

Questions about ACRE administration in the Archdiocese of Indianapolis may be referred to Gabriela Ross, Coordinator of Catechetical Resources: gross@archindy.org. More information is available at www.archindy.org/acre. Thank you for your good use of the ACRE instrument.
